## Old British Convict Ship Success

Now in Washington, en route to San Francisco, where she will be a feature of the great Panama Exposition. Exposition.

THIS WONDERFUL VESSEL HAS MADE HISTORY.

THIS WONDERFUL VESSEL HAS MADE HISTORY.

In 1790, the Convict Ship Success was built of solid Burmah Tesk, at Moulmain, British East India, as an armed East India increhantiann, Purchased by the British government in 1805, she was converted into a finating convict prison, and became the commodore ship of the Felon Fleet, being generally known as "The Ocean Hell."

She is the oldest ship in the world and the only convict ship left affeat of that dreadful freet of hells which salled the Seren Seas in 1790 A. D. She is unchanged after all these years, nothing being omitted but her human freight and their sufferings from the crucilies and barbartities practiced upon them. Aboard het are now shown, in their original state, all the airless dungenon and condemned cells, the whipping posts, the mismaelers, the branding irons, the punishment balls, the leaden-tipped cate o nine-tails, the coffin bath, and other fendish inventions of man's brutality to his fellowman.

\*\* From keel to must she cries alond the greatest leason the world has ever known in the history of human propess.

A Splendid Equipment. In his address to the graduates Gov. Glynn spoke on "Work." With the equipment Georgetown had given them, Gov. Glynn told his young friends, they ought to amount to something out in the world, if they'd only work, and he besought them not to let circuiustances hamper them. "Robert Louis Stevenson." he said, them not to let circuistances hamper them. "Robert Louis Stevenson." he said, "wrote like an angel while dying like a man. Helen Keller, though blind, deaf, and dumb, sees the wonders of creation and hears the music of the ages; John D. Rockefeller can't eat, and Carnegie can't spell; but—and here the governor paused to let it sink into the minds of tired youths—these people did not permit what they could not do to prevent them from doing what they could.

"Indifference to the magic of work," said Gov. Glynn, "the potency of drudgery, is the curse of too many college men. They want to be ten thousand dollar men before they are thirty-cent apprentices." Then the governor launched a castigation of dolltiles and dilettantes who are "too intellectual, too fastidious" to take an active part in public affairs. This was by way of urging the graduates to perform their civic duties.

pains said to cause muses, morning sickness and many local distresses.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmother's carlier years and is known throughout the United States it may be easily inferred that it is something that women giadly recommend.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address Bradfield Regulator Co., 307 Lamar Ribas. Attents. Ga.

At the A. B. C. conference yesterday the Americans presented the arguments outlined for them by Secretary Bryan, the Mexicans presented counter arguments which, because of their intimate knowledge of their own country, left the Americans without any evidence for rebuttal, it is said.
